Personal Profile

An experienced individual who utilises Web technologies to efficiently design and build websites. Through previous experiences, I have attained new skills in areas such as computer graphics, content management and digital marketing. As a problem solver, I like to find answers by doing my own research as well as other means. This has enabled me to remember solutions to problems whenever they occur. Alongside my current skills, I am eager to learn and apply new knowledge or technologies in Web Development. I am aiming to specialise in Front End Development as this will bring the chance to develop apps as well as websites in a business setting. *Success is to bring value and results.*

Key Skills & Competencies		
• Excellent HTML5 & CSS3	• Adobe Photoshop	• Teaching Skills
• JQuery & JavaScript	• Organisational skills	• Email Marketing
• Familiar with Sublime Text, Brackets, VS Code and Atom	• Quick learner	• Language: English, Bengali, Urdu and Arabic
• SASS | Bootstrap	• Customer Service	• Good Communication Skills
• GitHub	• Brilliant Time Management	• Brilliant Time Management
	• Excellent with Microsoft office

I.I.E (GCSES)   2005 - 2009
Achieved 9 GCSEs including Mathematics, English and Science.

Interest and Hobbies

A new addition to my hobbies is developing a websites using latest Web technologies. What I love about creating a website is the creativity and art that goes into it. I seek to further improve myself in creating websites and learn front-end development. I am currently studying in my free time Bootstrap framework and UX Design development.

I enjoy active lifestyle which consist of cycling as a form of exercise. Last summer I have participated cycling event held in London by the mayor of London. "Prudential RideLondon FreeCycle" is an event to promote cycling in our daily lifestyle. Young or old everyone can enjoy cycling. Jogging and swimming are also few exercises I enjoy and try to implement in my lifestyle.

Achievements:

Orphans in Need - I worked with a Charity organisation that raised a grand total of £700,000 in donations and sponsored over 600 orphans around the world. As a volunteer, I picked up phone calls during live TV appeals as well as meeting new people on the street, explaining about the cause and persuading them to donate.
